Biostatistics

We are offering permanent or freelance positions as Statistician (all genders). Candidates with all experience levels are encouraged to apply.

RESPONSIBILITIES

- Analysis, and reporting of clinical trials and preparation of integrated summaries
- Authoring of Statistical Analysis Plans (SAP) including design of table, listing and graph (TLG) shells
- Input to dataset specifications and review of outputs for analysis and reporting of pre-clinical/clinical trials or pooled analyses
- Statistical input to clinical trial reports, integrated summaries and (e)CTDs
- Collaboration with other trial team functions (such as data management, statistical programming, pharmacovigilance, clinicians, or medical writing) throughout the clinical trial conduct and submission preparation
- Communication and presentation of statistical methodology and analysis results to clients, investigators, regulatory authorities, scientific communities, and non-statisticians (e.g., clinicians)
- Contribution to (medical) publications
- Participation in industry working groups, conferences, and scientific meetings
- Development of standard operating procedures (SOPs) and contribution to continuous improvement

QUALIFICATIONS

- Masters' or equivalent/higher degree in Biostatistics, Mathematics, Biometry, or similar subject
- Strong knowledge in statistical methodology
- Analytical and problem-solving skills

ABOUT MAINANALYTICS

We are a well-known team of highly-motivated data managers, statistical programmers and biostatisticians with a wealth of experience.

Founded in July 2019 as an employee-owned CRO, we offer comprehensive expertise for the conduct, analysis and reporting of clinical studies – from preclinical to phase IV, and in various indications. We also support legacy data conversions, CDISC implementation, and submissions to global regulatory agencies.

Our professionals keep up-to-date on industry and regulatory standards as well as statistical methodology through continuous training. Several members of our team contribute their expertise in international, cross-organizational working groups and committees.

Teamwork, flexibility, timeliness, and accuracy are our strengths at mainanalytics.

We look forward to receiving your application. For any questions or to apply, please contact:
