Data Management (Senior/Principal Level)

We offer permanent or freelance positions as Senior or Principal Data Manager (all genders).

RESPONSIBILITIES

- Development and maintenance of clinical data management documents (e.g., data management plan, data review plan)
- Maintenance of eTMF
- Creation of CRF including annotations
- Design and setup of clinical databases
- Creation of validation specifications
- Programming of edit checks
- Query management
- Preparation of data transfer specifications and their conduct (e.g., IRT, external laboratory data)
- Conduct of database lock
- Application of industry standards (e.g., CDISC, coding dictionaries)
- Collaboration with technical and clinical team members throughout the clinical trial planning, conduct, and reporting
- Development and enhancement of processes (SOPs)

QUALIFICATIONS

- Bachelor's degree or equivalent in medical documentation, computer science, data engineering, or a related field
- At least five years of experience in clinical development
- Expertise in clinical EDC systems (Rave and Veeva preferred)
- In-depth knowledge of relevant regulatory requirements
- Excellent interpersonal communication skills
- Experience in programming languages (particularly SAS, SQL, and R)

BENEFITS

- Flexible work structure, full or part-time
- Option to work in Sulzbach, Marburg, or remotely
- Flat hierarchy, collaborative and positive team spirit

ABOUT MAINANALYTICS

We are a recognized team of highly motivated data managers, statistical programmers, and biostatisticians with extensive experience.

Founded in 2019 as an employee-owned CRO, we provide comprehensive expertise in the conduct, analysis, and reporting of clinical studies – from preclinical to phase IV and across a wide range of indications. Our services also include submissions to global regulatory authorities.

Our professionals stay current with industry and regulatory standards as well as statistical methodologies through continuous training. Several team members actively contribute their expertise in international, cross-organizational working groups and committees.

At mainanalytics, teamwork, flexibility, timeliness, and accuracy are our core strengths.

We look forward to receiving your application:
