Biostatistics (Senior/Principal Level)

We offer permanent or freelance positions as Senior or Principal Statistician (all genders).

RESPONSIBILITIES

- Authoring of Statistical Analysis Plans (SAP) including design of table, listing and graph (TLG) shells
- Input to dataset specifications and review of outputs for analysis and reporting of pre-clinical/clinical trials or pooled analyses
- Statistical input to clinical trial reports, integrated summaries and (e)CTDs
- Collaboration with other trial team functions throughout the clinical trial conduct and submission preparation
- Communication and presentation of statistical methodology and analysis results to clients, investigators, regulatory authorities, scientific communities, and non-statisticians (e.g., clinicians)
- Contribution to (medical) publications
- Participation in industry working groups and conferences
- Development of standard operating procedures (SOPs) and contribution to continuous improvement

QUALIFICATIONS

- Academic degree (e.g. MSc in Statistics, or Mathematics)
- At least five years of experience in clinical development
- Extensive knowledge of relevant statistical methodology
- In-depth knowledge of relevant regulatory requirements
- Experience in applied biostatistics concepts in specific therapeutic areas and drug development phases
- Excellent interpersonal communication skills
- Expertise in programming languages (particularly SAS and R)

BENEFITS

- Flexible work structure, full or part-time
- Option to work in Sulzbach, Marburg, or remotely
- Flat hierarchy, collaborative and positive team spirit
- Dedicated resources for further professional development

ABOUT MAINANALYTICS

We are a recognized team of highly motivated data managers, statistical programmers, and biostatisticians with extensive experience.

Founded in 2019 as an employee-owned CRO, we provide comprehensive expertise in the conduct, analysis, and reporting of clinical studies – from preclinical to phase IV and across a wide range of indications. Our services also include submissions to global regulatory authorities.

Our professionals stay current with industry and regulatory standards as well as statistical methodologies through continuous training. Several team members actively contribute their expertise in international, cross-organizational working groups and committees.

At mainanalytics, teamwork, flexibility, timeliness, and accuracy are our core strengths.

We look forward to receiving your application:
